Spray Tanning is Here!

Get a gorgeous bronze glow without the harmful effects of the sun. Spray Tanning is a safe alternative to tanning outdoors and in tanning beds. It provides healthy and natural-looking color in minutes. Our Spray Tanning system uses a revolutionary application technology that ensures your tan is evenly and properly applied every time. You'll see immediate results due to the instant bronzer, and your tan will continue to develop and become darker during the next 6-12 hours.

Your first session is just \$15! Call us today for more details and to schedule your appointment.

Obagi Specials

Now is the time to purchase your Obagi favorites! For every Obagi product purchased during the month of June, receive one product of equal or lesser value for 50% off!

Not valid on kits, Tretinoin, or Refissa.

Purchase the full size Obagi Condition & Enhance System, and receive the travel size Condition & Enhance System for 50% off!

Limited to supplies on hand.

Father's Day is June 20th

May we suggest our King For a Day package? This combination of spa services includes our Swiss Shower treatment, an hour session of Personalized Body Therapy, and a Gentlemen's Facial. All services are specially designed for males, and are sure to delight even the most rugged man.

\$150 + tax (\$170 value!)

Pomp and Circumstance

Give your graduate something he or she will truly enjoy. A spa service is a relaxing treat after a hard school year (or after months of hard partying!). Bella Via carries gift cards for any service, spa package, or dollar amount.

June is National Acne Awareness Month

Bella Via has several resources, treatments, and products to help with this skin condition. We now offer BLU-U Blue Light Therapy, which involves the use of high-intensity, narrow-band blue light to treat mild to moderate acne. This pain-free light is safe and uses no ultraviolet light or lasers. It works by killing the *P. acnes* bacteria, which can form within the sebaceous glands and cause breakouts. The surrounding tissue is not affected. Blue light therapy treatments are quick and easy,

and consist of sitting in front of the light source for 16-30 minutes. For optimal results, Bella Via suggests treatments once or twice per week for five weeks. Results are typically seen within weeks, but may vary depending on the severity of the acne. Please call our office for more information.

Congratulations to Karen Davis!

Licensed Aesthetician Karen Davis has recently been appointed vice president of the Society of Plastic Surgical Skin Care Specialists (SPSSCS). The SPSSCS is a voluntary, nonprofit organization designed to promote the highest standards of professional skills and competence among plastic surgeons and their skin care specialists. As vice president, Karen will co-chair the president committee along with the president-elect. The program committee is responsible for the organization of its 17th annual meeting, which will be held in Boston, MA in May 2011. Way to go, Karen!
